MEMORANDUM FOR: Assistant Director for Communications
ATTENTION : Deputy Chief, Office of Communications (Plans)
FROM : Chief of Logistics
SUBJECT : Additional Construction, [REDACTED] 25X1A6a

This Office, in the process of reviewing the rough draft of the FE Division staff study on the above subject, recommended that the supervision of the construction of the power house, including the foundation, etc., be performed by the Architect-Engineer assigned TDY from this Office. In addition, it was recommended that if the Support Mission could not furnish an engineer to perform the work of aligning and leveling the generator's engine, etc., the Office of Communications would make available one of its technicians on TDY for this purpose.
